

## Annex J - Costs and charges

### I) Costs and Charges for investment services and/or ancillary services

None. The service is free of charges.

### II) Costs and Charges related to the financial instrument

All figures refer to the Euro share classes but are to be considered valid also for the share classes denominated in different currencies

All figures, including una tantum fees applied by Italian Paying Agent, are calculated on 100.000,00 Eur of investment, considering 1 year time horizon and a performance of 0%.

This flat performance works as an assumption and it's not representative of past or future results.

The percentage of costs referred to HI Distressed Opportunities Fund is calculated on the amount invested by the fund.

Update Oct 2024

Fund's name	Subfund	Classes	Type	Description	Absolute value // amount (in Eur)	Percentage
